

Inventory of Valuated Recycled Materials

Effective May 19, 2014, the solution for maintaining quantity and cost of a recycled material in Inventory was moved to production. Below are the resulting Goods Receipt changes in the MIGO transaction.

System Process Changes:

Inventory Management will utilize Movement Type 501 when entering a Goods Receipt of the recycled material into the system.

On the MIGO Transaction,

Executable Action = A01 Goods Receipt

Reference doc = R10 Other

Movement type = 501

Material Number, Quantity, Plant and Storage Location will be entered on the associated tabs.

The screenshot displays the SAP MIGO transaction interface for 'Goods Receipt Other - KAREN PIERCE'. The document type is 'A01 Goods Receipt' and the reference document is 'R10 Other'. The movement type is '501' (Receipt w/o PO). The document date and posting date are both '04/16/2014'. The document is marked as a '3 Collective Slip'. The table below shows the line items for the document.

Line	Stat	Mat. Short Text	OK	Qty in UnE	E...	SLoc	G/L Account	Batch	Valuation T...	M...	D	Stock Type	Print
1		VALUATED RECLAIM MATERIAL #1	<input checked="" type="checkbox"/>	1	PR	Dist StockRm				501 +		Unrestrict...	DOTD Eng&

Note: Goods Issues and Transfer Postings movement types and processes will remain the same.
